

CHAPTER RECOGNITION BY NATIONAL HOSA

1. HOSA 100 Club

This is a very special and much appreciated club for those chapters which submit their paid affiliation fee by October 15. A certificate of recognition will be provided to HOSA 100 Club members as well as visibility in the HOSA Magazine.

2. HOSA 100% Affiliation Club

HOSA was established in 1976 because the founding state associations wanted an organization that could be totally integrated into the instructional program. HOSA is 100% curricular. It is appropriate to recognize those chapters that involve 100% of the HOE students with HOSA. By affiliating 100% of the HOE students with HOSA, chapters reject the "club" concept in which a few students join a chapter that may or may not be directed by the HOE teacher. HOSA's goal is to encourage 100% of the chapters that affiliate 100% of the HOE students and get them involved in student-directed activities. Chapters will be amazed at the power that a chapter can generate when all HOE students are involved and working to accomplish common goals through HOSA. Teachers will be pleased knowing that their instructional program provides for health care skills as well as personal leadership and career skill developed through HOSA involvement. The health care industry is pleased when they employ a graduate that has both the health care and personal/leadership skills needed for entry and advancement within a highly competitive and rapidly changing environment.
